Approved By	Branch Manager
Review Cycle	Annual

1 Purpose

The purpose of this Standard Operating Procedure (SOP) is to define the standardized process for withdrawing cash from an Automated Teller Machine (ATM) safely and securely.

2 Scope

This SOP applies to all bank customers using ATM/Debit cards for cash withdrawal transactions through ATM machines.

3 Pre-requisites

The user must ensure the following before initiating the transaction:

- Valid ATM/Debit Card
- Active Savings or Current Account
- Sufficient Account Balance

- Knowledge of Personal Identification Number (PIN)
-

4 Safety and Security Guidelines

Users must adhere to the following security practices while using the ATM:

- Do not share the ATM PIN with any individual.
 - Cover the keypad while entering the PIN.
 - Avoid accepting assistance from strangers.
 - Use ATMs located in secure and well-lit areas.
 - Retrieve the ATM card immediately after transaction completion.
 - Cancel the transaction and report to the bank if suspicious activity is observed.
-

5 Procedure

Step 1: Locate ATM

1. Proceed to a nearby ATM operated by a recognized banking institution.
2. Prefer using the account holder's bank ATM to minimize additional service charges.
3. Verify that the ATM environment is secure and operational.

Step 2: Insert ATM/Debit Card

1. Insert the ATM/Debit card into the card slot as indicated on the machine.
2. Wait for the system to read and process the card information.

Step 3: Select Preferred Language

1. Choose the preferred language from the options displayed on the ATM screen.

Step 4: Enter PIN

1. Enter the confidential Personal Identification Number (PIN) using the keypad.
2. Ensure the keypad is covered while entering the PIN.

Step 5: Select Transaction Type

1. Select "Cash Withdrawal" from the transaction menu displayed on the screen.

Step 6: Select Account Type

1. Choose the appropriate account type:

- Savings Account
- Current Account

Step 7: Enter Withdrawal Amount

1. Enter the amount to be withdrawn.
2. Verify that the entered amount is correct before proceeding.

Step 8: Confirm Transaction

1. Review the transaction details displayed on the screen.
2. Confirm the transaction to proceed with cash withdrawal.

Step 9: Collect Cash

1. Collect the dispensed cash immediately after the ATM releases the currency.
2. Count the cash discreetly and securely.

Step 10: Complete Transaction

1. Retrieve the ATM/Debit card.
2. Collect the transaction receipt if required.
3. Ensure the session has ended before leaving the ATM.

6 Exception Handling

Situation	Recommended Action
Incorrect PIN entered multiple times	Transaction may be blocked temporarily. Contact the bank if required.
ATM retains card	Contact the respective bank immediately and block the card if necessary.
Cash not dispensed but account debited	Retain receipt and report issue to bank customer support.
ATM machine not responding	Cancel transaction and use another ATM.
Suspicious activity near ATM	Avoid using the ATM and inform bank/security personnel.

7 Notes

- Daily withdrawal limits may vary depending on bank policy.

- Additional charges may apply for transactions conducted at other bank ATMs.
 - Customers should regularly monitor account statements for unauthorized transactions.
